We have put up an' sold this article for over ten years, and CAN SAX, IN CONFIDENCE AND TRUMH of it, what we have never been able to say of any other medicine—NEVER HAB IT FAILED, IN A SINGLE INSTANCE TO EFFECT A CURE, when timely used Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO KNOW," after ten years experience, and pledge over reputation for the fulfillment of what we have declars. In almost every instance where the infant is suffering from pain and exhaustion-relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most coperienced and skillful Surses in New England, has been used with never failing success in Femals Weakness and Irregularities. Also, Liver De-rate guants or Torpidity, and Liver Complaints, Diseases of the Kidneys, Scalding or Incontinuence of the Urinary or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, pre Pain in the Back, block, and selvers the Subsiders, pre-disposition Slight Colds, Hacking and Continued Cough Emaciation. Difficulty of Breathing, and indeed we wight enumerace many more still, but we have space only to say, it will not only cure the debility following Chillis and Fever, but prevent all attacks arising from Mias matic Influences, and cure the diseases at once, i already attacked. And as it acts directly and persistently upon the billiar waster, arousing the Liver to action, promo-It not only relieve the child from pain, but invigorates stomach and bowels, corrects acidity, and gives tone and energy to the whole system. matic Influences and cure the diseases at once, i already attacked. And as it acts directly and peralatently upon the bilary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any delirious couse quences following upon change of climate and water, hence all travelers should have a bottle with them, and all should take a table spoonful at least before eating As it prevente continues, strengthens the digestive or gaza, it should be in the hands of all persons of sedentary habits, students, ministers, literary men. And all ladies not accustomed to much out door exercise should always use it. If they will they will find an agrecable pleasant and efficient remedy against those ills which rob them of their beauty; for beauty canno exist without health, and health cannot exist while the above irregularities continue. Then again the Oordial, is a perfect Mother's Bellief. Taken a month or two before the final trial she will pass the dreadful period with perfect case and safety. There is no mistake about, this Cordial is all we else for it. Mothers, try it. And to you we appeal to detect the illness or decline not only of your daughters before it is two tate, but also your nons and husbands, for while the former, from false delicacy, often goesdown to a premature grae exather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were pet for you they too would travel in the same downward path, until too late to arrest their fanl fall. But the motoce is all ways vigilent, and to you we confidently appeal; for we are sure your never failing affection will unserringly point you to Prof. Wood's hestorative Cordial and Blood Ren ovator as the remedy which should be always on hand in time of need O. MECHANICS, FARMERS AND WORKING MEN. The attention of the enterprising and industrious parties of the community is directed to the following statements and Hb-ral inducements offered them by the ILLINOIS GENTRAL RAILROAD COMPANY, which, as they will perceive, will enable them, by proper energy, perseverance and industry to provide comfortable and permanent homes for themselves and families, with, comparatively

LANDS OF ILLINOIS. No State in the Valley of the Mississippi offers so great an aducement to the settler as the State of Illinois. There is no portion of the world where all of the conditions of climate and soil so admirably combine to produce those two great staples, Cons and Wingar, as the Prairies of Illinois. RICH ROLLING PRAIRIE LANDS. The deep rich loam of the prairies is cultivated with such won-derfu facility that the farmers of the Eastern and Middle States are moving to Illinois in great numbers. The area of Illinois is about equal to that of England, and the soil is so rich that it will support twenty millions of people.

EASTERN AND SOUTHERN MARKETS. These lands are configuous to a railroad 700 miles in length, APPLICATION OF CAPITAL Thus far capital and labor have been applied to developing the Thus far capture and short have need applied to developing the soil; the great resources of the State in coal and iron are almost unbuched. The invariable rule that the mechanic arts fourish beat where food and fuel are chongest, will follow at an early day in Illineis, and in the course of the next ten years the natural laws and necessities of the case warrant the belief that at least five hundred thousand people will be engaged in the State of Illineis in the various manufacturing employments.

THE STATE DEBT. The State Debt is only \$10,105,269 14, and within the laars has been reduced \$2,959,746 80, and we may reason PRESENT POPULATION.

The State is rapidly filling up with population; 865.031 per ons having been added since 1850, making the present popula ion 1,719,495—a ratio of 102 per cent in 10 years. AGRICULTURAL PRODUCTS. The Agricultural Products of Illinois are greater than those of any other State. The Products sert out during the past year exceeded 1.500,000 tuns. The wheat crop of 1000 approaches 5,000,000 of bushels, while the corn crop yields no FERTILITY OF SOIL. Nowhere can the industrious farmer secure such immediate r

ults for his labor as upon these prairie suils, they being co-ceed of a deep, rich loam, the fertility of which is unsurpass TO ACTUAL CULTIVATORS. Ripes 1854 the tow pany have seed 1.860,000 acres. They sell only to actual cultivators, and every contract contains an agreement to cultivate. The road has been construct at through these lands of an expense of 8.50,000 000. In 1850, the population of forty-nise counties through which it passes was only 33a,69s, since which 479,295 have been added, such in the whole population 814,891—a gain of 143 per cent.

EVIDENCES OF PROSPERITY. As an evidence of the thrift of the people, it may be stated tha 600,000 tuns of freight, including 8,500,000 bushels of grain and 250,000 barrels of flour, were forwarded over the line last EDUCATION. Mechanics and workingmen will find the free school system encouraged by the State and endowed with a large revenue for the support of schools. Their children can live in sight of the church and schoolhouses, and grow up with the prosperity of the leading State in the Great Western Empire.

PRICES AND TERMS OF PAYMENT. The prices of these lands vary from \$3 to \$93 per auro, se ording to location, quality, &c. First class farming, land sil for about \$10 or \$13 per acre; and the relative expense of unduing prairie land as compared with wood land is in ratio of to 10 in favor of the former. The terms of sale for the bul f the lands will be ONE YEAR'S INTEREST IN ADVANCE t six percent per annum, and six interest notes at six per cen payable respectively in one, two, three, four, five, and six years from date of asle and four notes for principal, payable in four, five, atx, and seven years from date of asle: the contract stipmating that one tenth of the trace purchased shall be femed and cultivated each and every year, for five years from the date of sale, so that at the end of five years one half should be fenced and under cultivation.

TWENTY PER CENT WILL HE DEDUCTED from the valuation for each, except the same should be at size dollars per sere, when the cash price will be five dollars. Pamphlets d'scriptive of the lands, soil, climate, productions prices, and terms of payment, can be had on application to J. W. The Anglo-Saxon reports she attempted to pass through the Straits of Belle Isle, but there being so much field ice was compelled to come around. She failed to bring the regular telegraph dispatches of the latest news from Londonderry. The Great Eastern expected to leave Liverpool i bout a fortnight, with three regimente of infantry. a field battery of artillery, and a number of horses for Quebec. It is admitted that this movement is suggested by the American difficulties, but it is merely for protection, and will only raise the garrison from its present weak state to what it was ten years ago. The movement is regarded by some as an insult to the United States.

The London Times in replying to the indignation of the Northern States against England, shows what little cause Englang has to sympathize with the American Government. It says that she will assuredly not rejoice over the military success of assuredly not rejoice over the initiary auccess of either of the belligerents.
